District Superintendents:

Each year I am asked to provide you information that may be beneficial to local churches as they set their pastor's salary for the following year. Some information to consider follows:

**Denominational Average Compensation** – The DAC, determined by the General Board of Pensions, is an average of the compensation (as defined by the retirement benefit plans) of full-time U.S. clergy who participate in the Clergy Retirement Security Program (CRSP) and/or the Comprehensive Protection Plan (CPP). Plan compensation includes housing allowances and exclusions; certain tax deferrals, such as UMPIP before-tax contributions and Code section 125 medical spending account deferrals; and for clergy living in a parsonage, an amount equal to 25% of compensation. In 2022, the DAC will increase 1.8% to \$75,570.

**Conference Average Salary** – The CAC is also determined by the General Board of Pensions using information only from our Virginia Conference. In 2022, the CAC will increase 1.7% to \$66,039.

**District Superintendents' Salaries** – By action of the Annual Conference Session in June 2021, district superintendent's annual salaries will increase to \$95,000 effective January 1, 2022.

**Conference Minimum Compensation** – The Minimum Compensation Guidelines proposed by the Equitable Compensation Commission was approved by the Annual Conference Session in June 2021.
